Sign in

Step 2

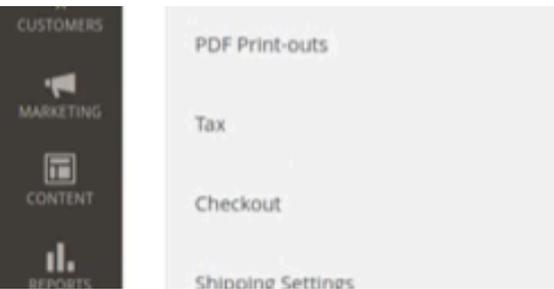

Go to stores and click configuration

Step 3

The screenshot shows the Magento Admin Configuration page in Google Chrome. The browser address bar displays the URL: `127.0.0.1/magento2/admin/admin/system_config/edit/section/payment/key/c60572018e42a2b3c1f63fdb74cab1fe164c7d55eb090ab8700c4bcec580c5f/`. The page title is "Configuration". On the left sidebar, the "SALES" menu is expanded, showing options like "Sales", "Sales Emails", "PDF Print-outs", "Tax", "Checkout", "Shipping Settings", and "Multishipping Settings". The "Checkout" option is selected. The main content area shows "RECOMMENDED SOLUTIONS:" with two options: "PayPal Express Checkout" and "RST Payment Tool". The "RST Payment Tool" option is highlighted with a red box and has a red callout box pointing to it. The "RST Payment Tool" description states: "Accept credit/debit cards and PayPal in your Magento store. No setup or monthly fees and your customers never leave your store to complete the purchase." Below the description are logos for VISA, Mastercard, Discover, American Express, and PayPal. A "Configure" button is visible next to the "RST Payment Tool" option. At the bottom right of the main content area, there is a link for "OTHER PAYPAL PAYMENT SOLUTIONS:" and a "Save Config" button in the top right corner.

Post installation , RST Payment Tool option will be reflecting under Payment Methods

Step 4

RST Payment Tool

RST Payment Tool

Accept credit/debit cards and PayPal in your Magento store. No setup or monthly fees and your customers never leave your store to complete the purchase.

Configure

Save Config

Proceed to Payment

On Clicking Proceed to Payment, the RST Payment tool installed at the admin level will be called.

- At this stage merchant will be forwarding additional order related fields such as **Country & City, Customer Email, Customer Name, MID, Payment Method, Purchase date, Purchase Order Number, Reference Number, Group Number, SKU Id, Payment Status, Batch Id, Purchase Point**

Payment Gateway Installed at backend

The screenshot shows a web browser window with the URL `tls.paygrid.in`. The page displays a payment gateway interface. At the top, there is a blue header with the text "Payment Methods" and a red button labeled "RST Payment Tool". Below this, there are logos for VISA, MasterCard, DISCOVER NETWORK, and PayPal. The main form area contains the following fields:

- CARD NUMBER: A text input field with the placeholder "Card Number".
- EXPIRATION DATE: A text input field with the placeholder "MM / YY".
- CVV: A text input field with the placeholder "CVC".
- CARD HOLDER'S NAME: A text input field.

At the bottom of the form, there is a green button labeled "CONFIRM PAYMENT" and the text "USD 300".

On Clicking Proceed to Payment, the RST Payment tool installed at the admin level will be called as shown above. At this stage merchant will be forwarding additional order related fields such as **Country & City, Customer Email, Customer Name, MID, Payment Method, Purchase date, Purchase Order Number, Reference Number, Group Number, SKU Id, Payment Status, Batch Id, Purchase Point** Payment gateway response **Capture, Authorization Success, Pre_Authorize,, Fail, Refund, Chargeback** will be passed on to the merchant site so that they can record the same at their end and display the Payment confirmation message accordingly
