OBJECTIVE

A results-oriented professional with over 24 years of extensive experience in **Contracts & Materials Procurement, Planning, Operations, and Maintenance in Electrical & Instrumentation**. Highly experienced as a **Procurement and Store/Warehouse Manager**, with over 12 years of expertise in overseeing the procurement, storage, and distribution of materials and equipment for a 660 MW power plant. Proven track record of managing supply chain operations, optimizing inventory levels, negotiating contracts, and ensuring the timely delivery of materials for smooth plant operations. Seeking to leverage my extensive background in procurement, inventory management, and leadership to contribute to the continued success of a dynamic organization...

PROFESSIONAL EXPERIENCE

Prayagraj Power Generation Company Ltd., Bara, UP (A Tata Power Entity)

Manager – Contracts & Material (Procurement & Store/ware) (June 2013 - Present)

Reporting to: Head – Fuel, Contracts & Material | Team Size: 12 executives

Professional Experience

- Manage the procurement process for all materials, spare parts, and equipment for the 660 MW power plant, ensuring adherence to budget, quality, and timelines.
- Develop and implement effective strategies for inventory management, ensuring availability of critical materials and reducing excess stock.
- Lead a team of 12+ staff in the warehouse and procurement departments, overseeing training, task delegation, and performance evaluation.
- Negotiate contracts with suppliers and service providers, achieving cost savings and favorable terms, while ensuring compliance with contractual obligations.
- Collaborate with the engineering, maintenance, and operations teams to understand equipment and material requirements, streamlining procurement processes.
- Supervise material handling and storage in the warehouse to ensure compliance with safety standards and avoid damage or loss.
- Maintain accurate and up-to-date records of inventory levels, procurement activities & vendor contracts.
- Coordinate with external suppliers, logistics companies, and vendors to ensure timely delivery of materials and minimize plant downtime.
- Develop and manage budgets for the procurement and warehouse functions, consistently meeting or exceeding financial targets.
- Conduct regular audits of inventory and materials to ensure accuracy and reduce discrepancies.

Key Achievements:

- Reduced procurement costs by 15% over three years through strategic supplier negotiations and optimization of inventory management practices.
- Streamlined warehouse processes, reducing material retrieval time by 25% and improving overall operational efficiency.
- Played a key role in supporting the plant's project by successfully sourcing and managing the procurement of additional equipment and materials.

Jaypee Cement Plant- Rewa from March 2006 – May 2013 Maintenance Engineer (E&I)

Key Responsibilities

- Managed instrumentation engineering activities, including troubleshooting, energy conservation, and system upgrades.
- Led a team of engineers, driving decision-making processes and fostering collaboration across functions.
- Planned and organized maintenance during turnarounds and shutdowns.
- Implemented advanced diagnostic techniques to minimize production loss.

Technical Expertise

- PLC/SCADA/DCS systems, Siemens S7, GE Fanuc, VFD operation, and various process instrumentation.

Forms, Nagpur from July 2002 – March 2006 Production and Maintenance In-Charge

Key Responsibilities

- Ensured system reliability through continuous improvement techniques and advanced diagnostics.
- Led troubleshooting for critical failures and safety incidents.
- Managed plant maintenance budgets and resources.

Bharat Electronics Ltd. (BEL), Pune March 2001 – March 2002 Process Engineer

Key Responsibilities

- Conducted pot build-up in vacuum stations and processed microchannel plates using specialized materials.

SKILL

- Procurement & Supply Chain Management
- Warehouse Management, Logistics Coordination & Inventory Control
- Contract Negotiation, Vendor Management, Budgeting & Cost Optimization
- Team Leadership, Staff Development, Safety & Compliance Standards
- SAP and Ariba knowledge
- Strong Communication & Negotiation

PROJECT & ACHIEVEMENTS

- **Vendor Management System Overhaul:** Led a team to improve vendor management, reducing delays in deliveries by 20% and improving supplier performance.
- **Lean Warehouse Optimization:** Implemented lean principles in warehouse organization, reducing space utilization by 30% and improving material flow.
- **Emergency Procurement Initiative:** Developed and executed an emergency procurement plan that ensured critical plant parts were delivered on time during unexpected shutdowns, minimizing downtime.

EDUCATIONAL QUALIFICATIONS

- Diploma in Electronics & Communication – Government Polytechnic, Arvi (2001)
