B. Tech.	Amravati University	Sant Gadge Baba Amravati University	2022	9.09
Diploma	MH State Board	Technical Institute, Pune	2018	58 %

## WORK EXPERIENCE

### Berger Paints India Ltd, Jejuri Plant

Pune

Process Control Lab

Nov 23- Current

- Managed the preparation and execution of first-time batches, ensuring precise adherence to formulations and quality standards.
- Monitored and controlled process parameters to optimize batch quality and consistency.
- Conducted thorough inspections and tests on first-time batches to identify any deviations and address them promptly
- Collaborated with R&D and Production Team to formulate initial paint batches, adjusting raw material quantities and mixing processes based on test results.

Quality Control Officer

July 22-Nov 23

- Conducted a comprehensive study on raw ingredients and paint applications.
- Performed various testing procedures using state-of-the-art instruments to assess raw material properties.
- Quality check incoming raw materials (pigments, solvents, extenders, additives) to verify they satisfy requirements before manufacturing.
- Conducted quality control checks for solvent-based paints to ensure they met requirements.
- Resolved customer issues about paint quality with efficient answers and remedies.
- Documented paint testing techniques, results, and discoveries to ensure proper record-keeping and analysis.

## INTERNSHIP

### Ashirwad Innovative Coatings
