About Me

Detail-oriented Chemical Engineer with a B.Tech in Chemical Engineering and hands-on experience in biogas production and petroleum product processing. Proven ability to optimize production processes and contribute to innovative projects. Seeking to leverage technical skills and internship experiences in a dynamic chemical engineering role.

Skills

- Management Skills
- Creativity
- Project Management
- Optimization Techniques
- Critical Thinking
- Leadership

Education

- **B.tech in Chemical Engineering**
Golaghat Engineering College 2020-2024
Experienced through internships and workshops, eager to leverage my skills in a challenging Chemical Engineer role to contribute to innovative solutions and advancements in the field.
- **Advanced diploma in computer application**
Amrit Institute of management & IT 2021
Detail-oriented and tech-savvy professional with an Advanced Diploma in Computer Applications.

Experience

- **Academic Intern**
IIT Guwahati
Assisted in research on biogas production using cow dung, focusing on process optimization
- **Industrial Intern**
IOCL Digboi
Gained experience in the production of various petroleum products from crude oil, participating in the operational aspects of refining processes.
- **Participant**
MATLAB Workshop | IIT Guwahati |
Developed proficiency in MATLAB for engineering applications, enhancing data analysis and problem-solving skills.
- **Participant**
AI for Future Workshop Program
Engaged in discussions and projects related to the integration of AI technologies in engineering, fostering innovative thinking.
